Subject: Microsoft Settlement

I wish to add my name to the record of individuals opposed to the proposed settlement of the antitrust case against Microsoft Corporation.

I am a professional user of computers with more than twenty years in the industry, and was shocked by the cynical disregard for the law, for society, and for individual rights amply proven by the prosecution's evidence. It is utterly unacceptable that the court would accept the self-serving attempt by Microsoft to extend its monopoly even further by "donating" its products -- to a captive audience at a price they set themselves! -- in order to buy its way out of the appropriate remedy.
